www.quiltingintheloft.com

This class explores how to work with a time honoured & classic child's art tool--- Crayons applied to fabric!

In this class you will learn how to apply (appliqué) crayons to solid white cotton & a canning jar vase of flowers. (Design will be provided prior to the class). You will also learn how to set the crayons properly so that the colour is permanent & the colour will not wash out. Outlining of the whole design can be done with permanent black markers &/or free motion quilting. Robin will demonstrate all techniques so all skill levels can attend this class. These new techniques can be applied to all of your future projects & will allow you to customize almost anything for one of a kind results. So much fun!

In this three-hour workshop, you will learn the basics of Accordion Sewn HSTs™, the innovative and incredibly fun method of making HSTs invented by Beth Helfter of EvaPaige Quilt Designs. We will practice with fabric scraps, then create a quilt block.

From Beth: Why take the Intro to Accordion Sewn HSTs™ Workshop?

The Accordion Sewn HSTs™ method came to me almost in a fever dream, and since then I've been on a mission to bring it to groups everywhere, showing the cool things it can do, from scrappy to ordered accordions that create a block practically in one fell swoop. In this class, you will learn the basic technique, and apply it to an ordered accordion block. We will take it one step further and learn Accordion Sewn QSTs™ too! So much fun!
